†SRI D. DEVARAJ URS.—Sir, the only thing is I have to go through that book which the Hon. Member refers to wherein Tippusultan's name must have been dragged out, defamed and so many things have been attributed which are not to be attributed by historians according to Sri hon. Member Qumarul Islam. I know there are two books and many more about Tippusultan. One by Praxy Fernandes and other by Bhagwan S. Gidwai. Praxy Fernandes took lot of pain by going to London Library and studied the previous history. He has paid very glowing tributes to Tippusultan. If there are any derogatory remarks in other books or observations if any found in those books, we will go into it and see whether those books should be allowed or not.
